

The Three Most Common Battles Between the Front and the Back . . . and how to solve them

COURSE OVERVIEW:

When there is turmoil between the front office and the back office, your patients can feel it. They can sense the frustration and see it on your face when you're disappointed in one of your team members or even your doctor. Together, let's set standards in your office so that patients walk away feeling like your office is a well-oiled machine and you go home at night ***feeling fantastic instead of frustrated.***

In this interactive, fun course, team members will experience how it feels when things break down and together look at solutions that can strengthen the respect within so at the end of the day, ***everyone feels good.*** We'll look at things from the clinical and administrative side in this fast-moving course. Attendees will walk away from this course with some tools and system strategies they can implement on their first day back in the office.

WHAT YOUR ATTENDEES WILL LEARN:

- Identify the daily challenges that affect team performance, productivity and patient care
- Dissect each battle and learn how to create systems the entire team can agree on
- Learn how to put these systems in place and attain cohesiveness in your team
- Practice verbal skills that will create better communication between your team members and build trust with your patients
- Discover how every team member can feel valued at the end of the day

COURSE TAKEAWAYS:

- Sample verbal skills to take back to the office and practice with your team
- Tips to use with your practice management software
- Team activity worksheet for your next meeting.

Path to Paperless – The 3 key elements to ensure your team’s success

Overview

“Going chartless” is an often-used and often-misunderstood term in the dental world. Dayna’s expertise will allow practices to see benefits such as automated systems that give team members **more time to spend on patient care**, integrated electronic services to ensure patients know the practice is **keeping up with the latest technology**, making the patient chart more accessible and allowing the clinical team to treatment plan while the front office can be working ahead on payment plans and insurance issues, raising the level of office security to **comply with new HIPAA requirements**, and much more.

What your attendees will learn

- The importance of backup and security
 - It is frightening how many dental practices don’t know who handles their backup or what they would do if they needed to recover their data after a disaster. Dayna will show attendees why they must know this information and how to guarantee proper systems are in place.
- How to document efficiently
 - A common misperception among dental team members is that it takes too long to document using a computer. Dayna will show attendees how to streamline the process so the clinical team stays on time and provide valuable information to their admin team.
- How to maintain consistency and a cohesive technology plan for your practice
 - Many dental practices have pieced their technology together over time. Dayna will show attendees not only how to maximize their current technology systems, but also how to make them become the “wow factor” for patients.

Course Outline

- Learn the Foundations of a Paperless Practice
- Understand Practice Management Software
- How can small changes in office design help your practice?
- Information you need to know about your computer hardware
- You have it all . . . now how do you implement it?
- Maximizing and discovering ongoing resources
- How to stay up to date on HIPAA requirements

STREAMLINE SYSTEMS . . . IMPROVE CUSTOMER SERVICE . . . CELEBRATE SUCCESS

Numbers Tell a Story . . . the 5 Stats Every Office Should Monitor & Why

Overview

Monitoring numbers doesn't mean you write them down on your spreadsheet, stick them in a 3-ring binder and forget about them. Numbers are meant to be discussed with your doctor, talked about with your team and used to create new strategies to **streamline your systems, improve your customer service** and above all **give you something to celebrate**. Numbers tell a story.

Course Objectives

- Discover the statistical health of your practice
 - Poll the audience and discuss the results as a group
- Learn why you should monitor numbers
 - Ask the audience for their opinions
 - Discover the six reasons why monitoring numbers will **increase your office profitability, save time** and **improve patient care**
- Learn what numbers you should be tracking
 - Learn the top 5 stats to monitor
 - We will break down each one and find out why they are so important
 - Learn strategies that work to help improve your numbers
- How do you track the numbers?
 - Streamline your monitors which will save you time with manual calculations
 - Examine some sample monitors together and analyze them
- The health of your practice depends on the numbers
 - Learn how to influence the numbers in a positive way
 - Learn what you can do today to positively impact your practice tomorrow

INCREASE CASH FLOW . . . TAKE CONTROL OF INSURANCE . . . STOP DROWNING IN A/R

Top 5 Ways to Increase the Cash Flow . . . stop drowning in A/R

Overview

I am amazed how often the doctor doesn't know what the accounts receivable is for his practice and when he asks the office manager she doesn't even know what report to look at. Would you like to define new protocols in your practice that will **increase your cash flow**, prepare patients for **payment at the time of service** and **put you in the driver seat** with insurance companies? This course will help you not only understand what it takes to be in control of your money but develop protocols for your own office.

Participants will learn:

- Define exactly what the accounts receivable is
- Discover if the office A/R is within industry standards
- Learn how to take control with insurance
 - Narratives
 - eClaims management
- Train patient behavior
 - 1st phone call
 - On the day of the appointment
- Establish a follow up plan if the A/R goes over 30 days
- Ways to include the entire team in the collection process

Participants will take away:

- Language skills for the new patient phone call
- Sample insurance narratives to improve 1st time payment
- Sample collection letters
- Customized time line for phone calls, letters and follow up

EMBRACE ICD-10. . . TAKE CONTROL OF INSURANCE . . . PATIENT ADVOCATE

Medical Billing or Bust

Overview:

In our evolving world of technology, EHR, and code changes, it can be overwhelming trying to keep up with it all. This course will give you an overview into the world of medical/dental cross coding and billing. Today's current dental and medical coding allows for dental providers to help patients tap into their medical benefits and provide some financial assistance for treatment.

What participants will learn:

- If you want to bill medical, you better act like a doctor
 - Learn what it takes to have medical necessity and document it
 - A medical narrative compared to a dental narrative
 - Discover the wonderful world of ICD-10
- Proper setup will save you a ton of headaches down the road
 - Together we will define the language of the medical claim form
 - Learn proper setup in your practice management software to help ensure claims payment success
 - Prepare the patient insurance for proper claims submission.
 - The benefits of medical billing can help your practice and build patient trust
 - Recognize that a medical claim is not a dental claim ... and if you treat them the same, you will get burned.
- Discover resources available for the practices
 - Look up resources online
 - Where to turn for help

Participants will take away:

- Helpful tips for getting paid
- Tip sheets to take back to the practice for future reference

Dayna Johnson . . . dayna@novonee.com . . . cell 425.238.3699

COURSES

The dental team's entire day revolves around the practice management software and with software and technology constantly being updated it is important to maintain solid systems. Bring the leading Dentrrix expert into your next meeting for a day of Dentrrix optimization. With 25 years in the dental industry and 12 years as a certified Dentrrix trainer, Dayna shares her experience and best practices with attendees, so they can implement the new systems with confidence.

Be Proactive with Your Schedule. . . reduce no-shows and stress

- Learn the four reports for keeping your schedule full
- Discover verbal skills to avoid last minute changes
- Create a daily, weekly and monthly system for managing the appointment book

Continuing Care . . . it's the lifeblood of your practice

- Discover best practices for managing your recare patients
- Learn the best tracking methods and follow up plan
- Create consistent documentation

Protect Your Patients, Protect Your License

- Create better, more comprehensive clinical documentation
- Discover the best option for the health history updates
- Learn how to streamline diagnosing and treatment planning

Create your own Dentrrix® course . . . any topic will be considered

Dayna Johnson

Dayna Johnson loves her work. During her career of managing an amazing dental practice on beautiful Whidbey Island in Washington state, she started training and consulting with other dental practices around the region and found that was her life's work. Now with more than 25 years of experience in the dental industry, Dayna's passion for efficient, consistent, and secure systems is grounded in personal understanding and professional expertise. With a direct, pragmatic approach, Dayna helps clients develop standardized protocols for all practice management systems.

Seeing a need in the dental industry for more resources, she founded Novonee – The Premier Dentrrix Online community in 2016 and helps cultivate Dentrrix superusers all over the country. Dayna knows that your entire day revolves around your practice management software and the more you learn the more productive and stress-free your office will be.

No two dental offices are alike, and Dayna channels her *passion for going chartless* to help each of her clients *fulfill their goals* and *increase their profitability*.

When she is not training, speaking or writing an article, Dayna enjoys spending time in the garden, golfing and hiking in the Rocky Mountains. Dayna is a total foodie and when on the road searches out local restaurants to support the local economy.

Dayna's expertise helped her earn the prestigious Spirit Award for Independent Certified Dentrrix Trainers in 2011. She authored the national Dentrrix Office Manager's blog for over 7 years and was selected one of the Top 25 Women in Dentistry in 2016.

Dayna's recent accomplishments include . . .

- Lecturing throughout the country including presenting at the Yankee Dental Congress, Chicago Mid-Winter, Rocky Mountain Dental Conference, Connecticut State Dental Meeting, Pacific Northwest Dental Conference, American Association of Dental Office Managers, Business of Dentistry as well as more than 20 half-day seminars presented by Henry Schein.
- Voted one of the Top 25 Women in Dentistry 2016

Dayna's course description and course length can be tailored to meet the needs of your meeting. Any of her courses can be presentation or workshop style. She will also promote your event through multiple social media channels, including creating a welcome video for you to use in your marketing promotions.

Dayna's lectures are fun and interactive. She keeps the audience engaged throughout the full presentation.

What Attendees say About Dayna Johnson . . .

"I learned new fast tricks that will save me time and money"

Angela, Office Manager from Anchorage, AK

"She is very knowledgeable and can communicate her expertise in a way which makes it easy to learn."

Dr. A.J. Gollofon from Seattle, WA

"Very informational, great speaker/trainer, very engaging seminar"

Sherry, Office Manager from Boise, ID

"Very informational, it was nice because we could get our own questions answered."

Marissa, Office Coordinator from Portland, OR

"I am new to the dental field, this was SOOOOO informative! Loved it! Thank you!"

Heather, Front Office/Patient Coordinator from Portland, OR

"Very Good! Dayna made sure everyone understood and welcomed questions."

Kathy, Office Manager from Spokane, WA

"Technology enhancing, great ideas, wonderful. Dayna – nice warm voice & delivery, Thank you"

Renee, Office Manager from Portland, OR

"All the staff wants to thank you for your training on Wednesday. You by far are the best trainer that we have ever had. You are very patient. Even my husband said that also. He said that he learned a lot, which is a big thing, because most of the time, during meeting/retreat/training, he just dozes off."

Dr. Ann Lien , dentist from Morgan Hill, CA
